Interactive English

Implementation Planning and Faculty Training

PARTIPANTS:

Faculty members who will be using Interactive English to teach writing courses on campus or via distance learning.

TIME:

Implementation Meeting: One-hour telephone conference.
Faculty training: Full day.

MAXIMUM ENROLLMENT:

25 participants

DELIVERY FORMAT / SETTING:

A member of the Academic Systems Curriculum and Implementation Team conducts faculty training on campus. Participants work in a computer lab in which the Interactive English materials have been installed, following coordination between the campus technical staff and a member of the Academic Systems Technical Services team. Faculty training meetings may also be conducted via the Internet.

DESCRIPTION AND OBJECTIVES:

During the Implementation Planning Meeting, key administrators and faculty discuss the goals, curriculum, organization, training, and support of the Interactive English program in preparation for the on-campus faculty training meeting. Participants in the faculty training session identify program goals and learn to work with the Interactive English lessons and the Instructional Support System. Participants also become familiar with effective instructional procedures.
